Why choose a Pet Health Plan?

We believe that prevention is always better than cure to help give your much-loved pet a long, healthy and happy life.

Our Pet Health Plans are supercharged with a host of benefits to provide pets with nose-to-tail preventive care.

Using all the benefits will help with early detection of potential health issues, when they're typically easier and less expensive to treat; and deliver expert, tailored care at every stage of their life.

You can either pay through a simple monthly direct debit to spread the cost throughout the year, or pay in one annual sum - the choice is yours*. Please read on for more information, or speak with one of our team today.
